### Real Property, Real Professionals

Commercial real estate law is a complex, multi-faceted field encompassing a wide range of issues. Brooks Pierce is proud to have one of the most experienced, full-service commercial real estate practices in North Carolina. We have a team of more than 20 attorneys who regularly assist clients on large, complex transactions throughout the United States, including joint ventures and multi-use projects. In addition to our transactional capabilities, we routinely represent clients in commercial leasing matters and real estate litigation matters including condemnation actions, partnership disputes, construction litigation and title actions.

We work on behalf of real estate investors, developers, lenders, higher educational institutions, health care providers, corporate owners and tenants, franchisees and contractors across a wide range of industries and sectors, with a special focus in hospitality, office, multifamily, finance, education, agribusiness, retail, construction, telecommunications and media.

Our services include:

- **Sales and Acquisitions:** In all steps of purchasing and selling real estate, we provide representation to investors, developers and landowners. Our lawyers draft and negotiate purchase and sale agreements, perform title and survey review and other due diligence, conduct closings and structure ownership entities for investment properties.
- **Entity Formation and Joint Venture Structuring:** We are skilled at structuring limited liability companies and other joint venture entities in a manner that balances the need to protect our clients with the practicalities of the particular deal.
- **Financing:** We assist borrowers and lenders in closing loans secured by commercial real estate including construction and permanent financing.
- **Leasing:** We have deep expertise in drafting and negotiating commercial leases for both landlords and tenants, with a particular focus on office and retail.
- **Development:** Our lawyers draft and negotiate easements, declarations, and covenants, conditions and restrictions (CC&Rs) for multi-use, retail, and residential projects.
- **Land Use Counsel:** We assist clients with land use planning and development, including rezoning, annexations, subdivisions, site plan approval, permitting and variances.
- **Environmental:** We regularly advise clients on complex environmental issues in connection with the acquisition, development and financing of commercial real estate.
- **Construction:** We draft and negotiate construction contracts on behalf of owners and contractors.
- **Litigation:** Our team resolves disputes between landowners, developers, lenders, contractors, and real estate buyers and sellers, including title matters, lien claims, landlord tenant disputes, loan workouts
